Subject: Microsoft Settlement

To whom it may concern,

I would like to offer my opinion that the proposed anti-trust settlement that Microsoft Corporation has reached with a number of Plaintiffs in this case is grossly ineffective. As a network administrator at a private corporation, I am forced on a continual basis to deal with issues caused by inferior Microsoft products that we are forced to use because they are so wide spread. This proposed settlement will do little to nothing to resolve the real issues in this case, and Microsoft will continue to act in ways that make competition impossible.

Thank you,
Stephen Kemler
